## EDUCATION

### University of Colorado Boulder

*Master of Science in Computer Science*

Boulder, CO

*Apr. 2024 – Jul. 2025*

### Goldsmiths, University of London

*Bachelor of Music*

London, UK

*Sep. 2015 – Jun. 2018*

## EXPERIENCE

### Software Development Lead

*Westland Real Estate Group*

Dec. 2024 – Present

*Remote*

- Serve as the most senior developer in the company, owning technical decisions across multiple systems and projects.
- Lead a team of 2 developers, providing mentorship, code reviews, and technical guidance.
- Cut cloud costs by 50% (nearly \$20K/year) through VM audits, rightsizing, and migration to serverless.
- Launched internal tool **Westland AI** — a natural language SQL chatbot.
- Took over, refactored, and extended key apps: **Datalink**, **Investment Management**, and **BankRec**.
- Currently contributing to internal tool **Recurring Expenses** — designed to help track and manage recurring invoices and expenses.

### Software Developer

*Westland Real Estate Group*

Mar. 2023 – Dec. 2024

*Remote*

- Developed **Table Sync** app for managing data sync jobs with BigQuery and third-party systems.
- Took over development of internal investment management app mid-project and completed it (Postgres, React, Node.js, Redux).
- Redesigned Entrata CRM data pipeline using Cloud Functions, cutting runtime by 75% and improving maintainability.
- Built and maintained automations: LoanPro reports, Paycor/Gatewise/Vero ingestion, BQ view history tracking.
- Used GCP stack extensively: Cloud Functions, BigQuery, Firebase, Pub/Sub, Cloud SQL.

### Junior Software Developer

*Westland Real Estate Group*

Apr. 2022 – Mar. 2023

*Remote*

- Contributed to development of internal financial reconciliation app (React, Tailwind, Material UI, Firestore).
- Built and maintained Python ETL scripts ingesting HRIS and other platform data to BigQuery.

### IT Engineer

*Synergy Associates*

Aug. 2021 – Apr. 2022

*Los Angeles, CA*

- Provided on-site IT support as well as remote monitoring for global clients.

### Software Development Consultant

*Paliza Consulting*

Jun. 2020 – Present

*Remote*

- Built and maintained Python ETL tools for parsing and visualizing energy industry data.

## TECHNICAL SKILLS

**Languages:** TypeScript, Python, SQL, Bash, JavaScript, HTML

**Frameworks:** React, Redux, Node.js, Express, Flask, TypeORM, Material UI, Tailwind CSS

**Cloud/Tools:** GCP, Firebase, Git/GitLab, Postman, Cloud SQL, BigQuery, Pub/Sub, Cloud Functions

**Other:** CI/CD, Linux, Serverless, Figma-to-code, LLM-assisted development (Cursor), pgAdmin
